State-of-the-Art Smart City Infrastructure

OVERVIEW

A Suite of Patented Smart City Products

Intellistreets is a product and solutions focused company that has developed a suite of over a dozen patented products to create the next generation of outdoor lighting infrastructure. The company's proprietary technologies provide superior solutions at a fraction of the price of competitors, chasing efficiency and ease of integration rather than a closed “walled garden” — reducing switch costs and promoting smart city integration through retrofit capabilities.

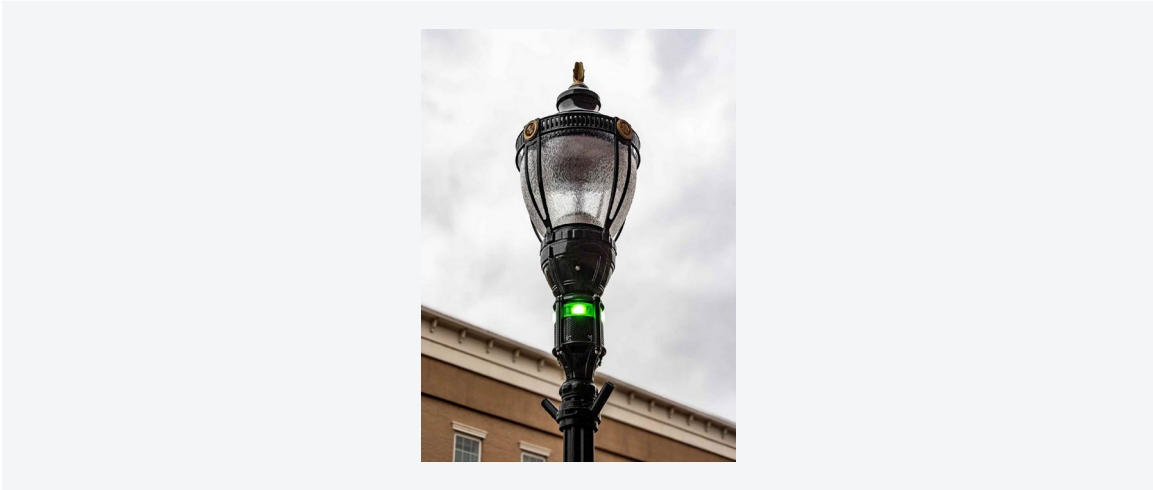

CORE PLATFORM

A modular smart-pole system that modernizes streetscapes with lighting, communications, and sensing in a single integrated architecture — deployed via integrated luminaires (new poles) or retrofit modules (upgrade installed poles). A central gateway and wireless mesh network enable scalable corridors and city-wide monitoring from a single cloud dashboard.

TYPICAL DEPLOYMENT USE CASES

- Downtown streetscape revitalizations and corridor upgrades
- Parks, trails, and public spaces requiring safety, connectivity, and ambiance
- Smart campus environments (universities, community colleges, research parks)
- Mixed-use developments and entertainment districts
- Utility and distributor-led programs focused on energy efficiency and modernization

State-of-the-Art Products

Integrated Luminaire

\$5,270+

- Wireless Lighting Control
- Concealed Placement Speaker
- DMX Flood Light Control
- Switched Relays for Receptacles
- RGBA Notification
- Wireless Mesh Communication

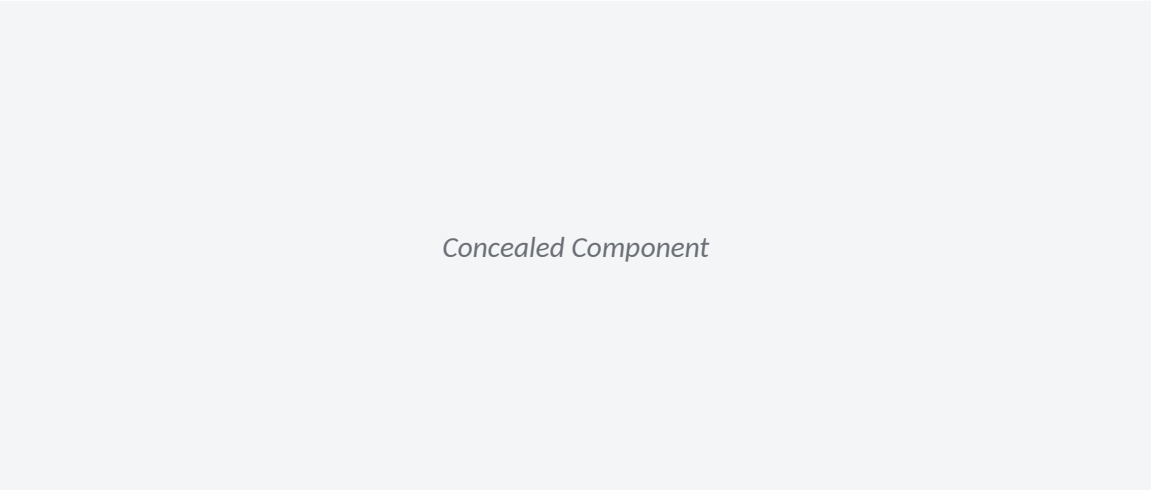

Post Top Module (PTM)

\$4,045

- Wireless Lighting Control
- Concealed Placement Speaker
- DMX Flood Light Control
- Switched Relays for Receptacles
- RGBA Notification
- Wireless Mesh Communication

State-of-the-Art Products

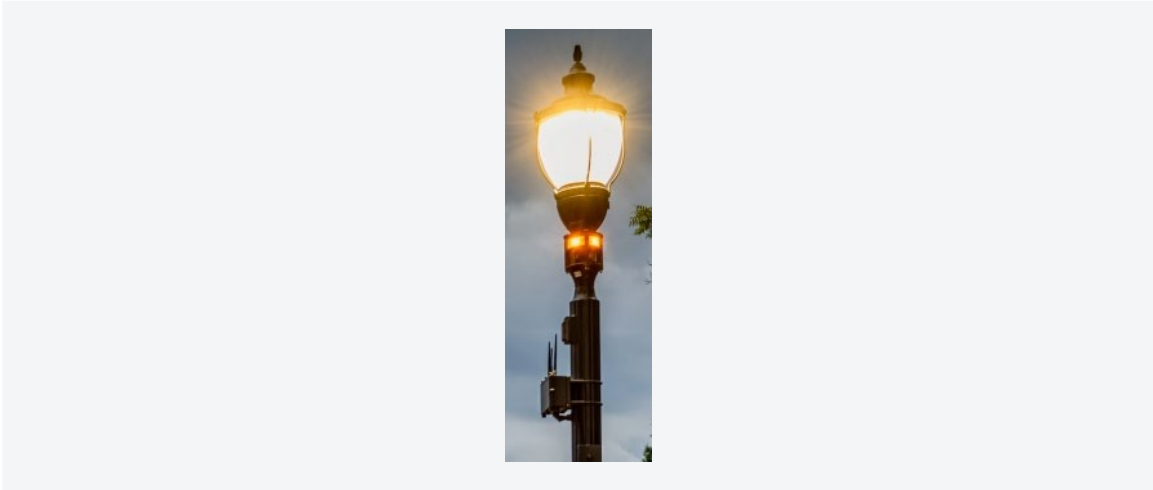

Concealed Component

Concealed Placement Speaker (CPS)

\$1,400

- Concealed Audio Tech
- Effortless Integration
- Patented Sync Tech (With ECM)
- 360° Hi-Fidelity Sound
- Wired or Wireless Installation
- Compatible for Music or Announcements

Intellistreets Gateway

\$5,348+

- Pole Mounted: 1 Gateway : 8 Nodes, 300' Range
- Concealed Gateway, Powered by 4 Antennae
- Equivalent to Pole Mounted Gateway

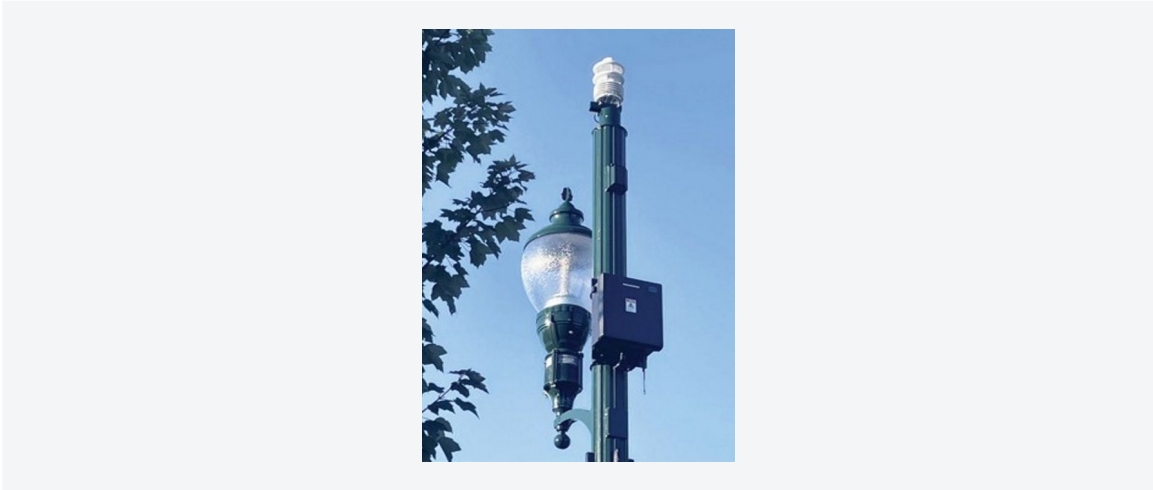

State-of-the-Art Products

Digital Banner

- Dual-Sided LED, Clearly Visible in Daytime
- Smooth Video Playback
- 9 ft² Display Area
- Built to Last Outdoors
- Flexible Mounting
- Failover Ready with Backup Controller

\$26,000

Weather Station

- Temperature, Air Pressure, Humidity
- Solar Radiation
- Lightning Strike Count
- Precipitation Intensity & Type
- Wind Direction, Gust, & Speed

State-of-the-Art Products

Push Blue

\$3,900

- Backlit Emergency Button
- Two-Way Audio
- LED Indicators & Audio Alerts
- Secure Site Integration
- Rugged Design
- Virtual Docent Augmentation

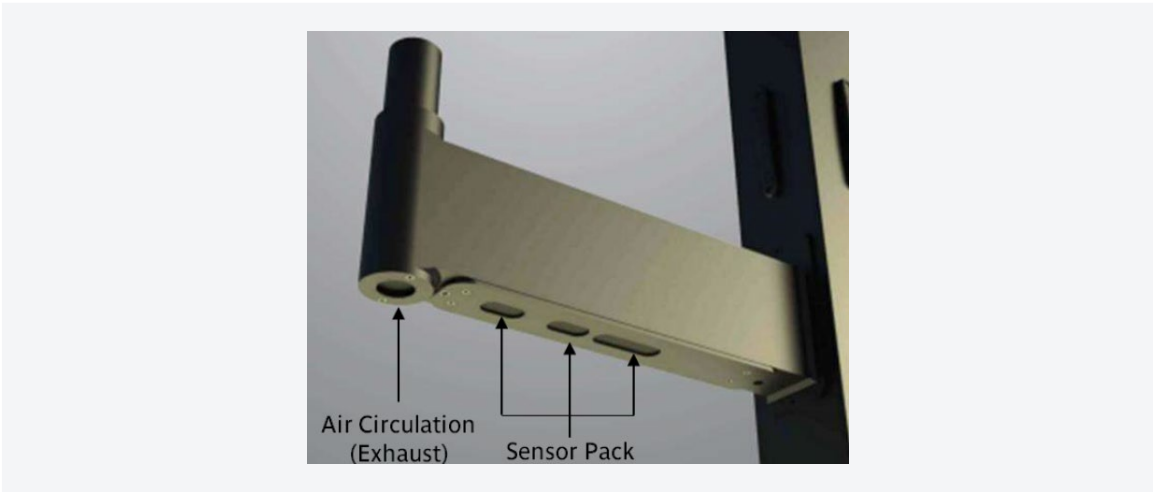

Public Wi-Fi & Cellular Modems

\$3,800

- Discreet Install
- Fast, Reliable Access
- MR86 Outdoor Ready
- Secure & Scalable

State-of-the-Art Products

Intellistreets Smart Arm

\$14,500

- Pedestrian Counter
- Air Quality Sensor

EyeStreets Camera (AI)

\$5,500

- Discreet Install
- AI-Enabled Security Features
- Up to 90 Days of Storage
- Pole Integrated or Universal Housing
- Optional License Plate Recognition

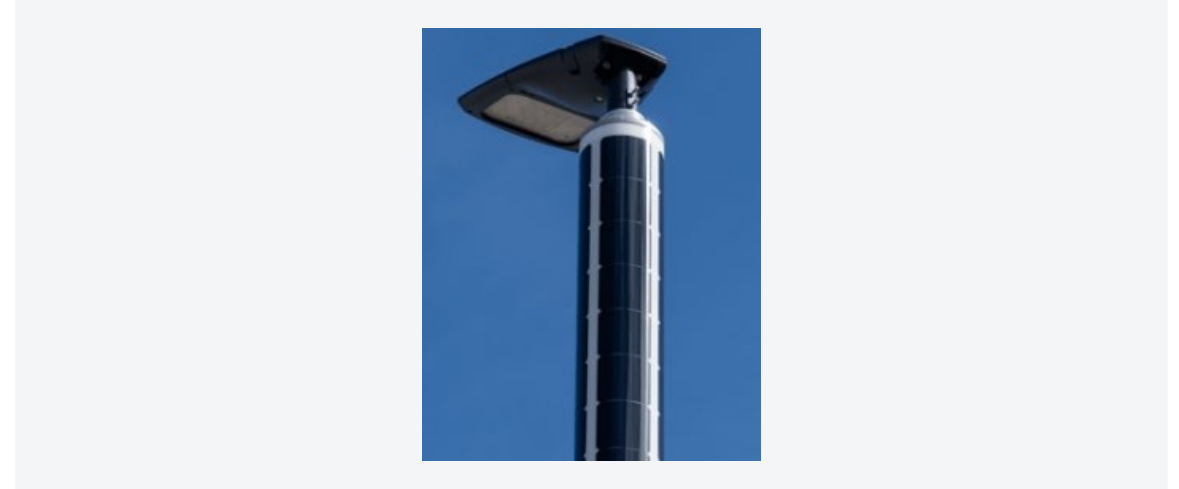

State-of-the-Art Products

Water Sensors

\$5,500

- Rainfall Sensor — Measures Above, Mounts Inside Pole
- Water Level Sensor — Measures Below, for Rivers, Streams & Lakes

Solar-Powered Intellistreets

- Self-Sustaining Energy
- Extremely Low Maintenance
- Wireless Intellistreets Control
- Sensors for Remote Locations

PRICING

Product Module Overview

Hardware Modules		
Intellistreets Integrated Luminaire	Complete smart pole solution	\$5,270+
Intellistreets Gateway	Pole-mounted wireless hub	\$5,348+
Post Top Module (PTM)	Retrofit control for existing poles	\$4,045
Concealed Speaker Assembly	Outdoor audio integration	\$1,400
Digital Banner (LED)	Dual-sided dynamic display	\$26,000
Push Blue Emergency Station	One-touch emergency call	\$3,900
Air Quality Smart Arm	Environmental monitoring cluster	\$14,500
Public Wi-Fi Unit	Municipal broadband access	\$3,800

Key SaaS Platform Modules		
Gateway Monitoring	Cloud management & alerts	\$67/mo
Public Wi-Fi Management	Network admin & analytics	\$35/mo
Push Blue Platform	Emergency dispatch integration	\$30/mo
Air Quality Analytics	Real-time env. monitoring	\$25/mo
Camera & LPR Management	Video & plate analytics	\$15/mo

Digital Banner Control	Content scheduling & CMS	\$15/mo
------------------------	--------------------------	---------

Prices are illustrative starting points and exclude commissioning costs; final pricing varies by specification and scope. Luminaire and Gateway prices shown are base prices prior to additional features.
